

DS5

WIRELESS DESIGNER SPEAKERS

ELEGANT SPEAKER DESIGN

The DS5 wireless designer speakers were designed with smooth, organic lines and refined touch controls to add a contemporary look to your décor. The rear firing slot-port design delivers impressively warm, room-filling acoustics. These are speakers you'll enjoy having in your space and love to listen to.

REMOTE CONTROL

Easily control volume, pause / play, mute, fast-forward and rewind tracks and wirelessly sync your device from across the room with the included remote control.

SIMPLE WIRELESS SYNC

These designer speakers utilize Bluetooth[®] wireless technology for music streaming from your phone, tablet or computer.

PLUG + PLAY

The DS5 wireless designer speakers also include an AUX audio input to plug in your TV or computer for movies, music and games.
