DESIGN + VERSITILITY

The DS6 wireless clock radio speaker adds a great sounding retro element to your home or office. The smooth, contemporary design, discreet touch sensitive controls and the dimming display respond to your touch and environment.

SIMPLE WIRELESS SYNC

This tabletop speaker utilizes Bluetooth[®] wireless technology for music streaming from your phone, tablet or computer.

DIGITAL CLOCK + FM RADIO

Tune in to your favorite FM radio stations. A vibrant, stylish digital display shows the time, wireless connection, and radio station.

REMOTE CONTROL

The DS6 wireless clock radio speakers come with an upgraded remote for easy volume control, pause/play, fast-forward and rewind, mute, wireless sync, time adjustments and station selection.

PLUG + PLAY

The DS6 wireless clock radio speakers also include an AUX audio input and includes a separate USB port that acts as a charging station for your electronic devices.
