## ALL NEW PURE WHITE GRILLE

Redesigned magnetic, paintable grille with a new, more natural white color blends more seamlessly into the most premium of interior décor.

## PREMIUM ACOUSTIC TECHNOLOGY

The 8" honeycomb fiberglass woofer and 1" silk dome pivot tweeter provide balanced, dynamic, rich sound for your music and movies by utilizing core Jamo technologies:

- Decoupled Tweeter Technology (DTT) minimizes vibration transfer from the baffle to the tweeter, for detailed, clear high frequencies.
- WaveGuide provides focused, dynamic transfer of high frequencies into the listening space.
- Hard Conical Cone (HCC) minimizes woofer breakup for punchy, clear low frequencies.
- Centre Plug replaces traditional dust cap for cooler voice coil and higher power handling.

## SPECIFICATIONS

## SOUNDANGLE™ TECHNOLOGY

Aim the sound downwards 30 degrees with a single switch. Ideal for when you want to place your speakers high above the listening position, without sacrificing robust, dynamic, on-axis sound. The pivot tweeter allows for even more placement flexibility and customization.

## TWEETER ATTENUATION SWITCH

Cut high frequencies on the fly with the three-way attenuation switch (0, -3dB, -6dB) to custom tune the speaker to the listening space for smooth, detailed sound in any environment.

## IMPEDANCE SELECTOR SWITCH

Custom tailor the speaker's impedance (4 ohm / 8 ohm) with the flip of a switch to optimize it to your amplifier or system.
